2. Each pair is packed in one polybag
3. 30 pieces are packed in one carton, carton size: 64\*63\*29CM

**User Instructions & Storage**

1. RECOMMENDED TO USE: Head Protection Workplaces, Construction Workers, Road Workers, Mechanical Workshop, Mining, Woodworking, Logging, Grinding, Cutting, Painting, Sawfly etc.
2. LIMITATION TO USE: The face shield is mainly used from splash objects to protect the face. If it is not mentioned, such as high & low temperature, electric insulation, fire, explosion etc, please don't use it. The material of this face shield is safe for wearer's skin. It may cause allergic reaction by susceptible people. Please check before use.
3. FITTING & MARKING: The face shield is designed to fit Europe & US human heads. Please adjust rotary knob to fit your head. All face shield has safety marking on it or on package, which represent the performance of the product and suitable field of use.
4. STORAGE & LIFESPAN: The face shield should be stored at room temperature and away from solvents, or solvent vapors or any corrosive materials, as these may seriously reduce the splash protection provided by the face shield. Maximum product life is 2 years.
5. CLEANING: This face shield can be cleaned and disinfected with soap and warm water. It is recommended that wiping of shell be kept to a minimum and only done so with a soft non abrasive cloth.
